SECTION 1

Getting to Montreal

ENTERING CANADA

When entering Canada, you will have to provide proper Identification; with all the information circulating about having to provide a passport, we have decided to clearly state what is needed to come to Canada.

To enter Canada, You will need proof of U.S. citizenship such as:

- o U.S. passport or an Original or certified copy of your birth certificate, plus photo identification.
- Visas are not required for U.S. tourists entering Canada from the U.S. for stays up to 180 days. If you are a naturalized citizen and do not have a passport, you should travel with your naturalization certificate. **A driver's license or Social Security card is not valid proof of citizenship.**

New U.S. Passport Requirements for U.S., Canadian, Mexican, Caribbean Travel

U.S. Department of Homeland Security (DHS) has announced a new passport initiative which will phase in new requirements over the next three years for all travelers to and from the Americas (including Mexico, Panama, and Canada), the Caribbean, and Bermuda. This will require a passport or other accepted form of documentation when entering the United States. This initiative will be implemented in phases, with the proposed timeline as follows:

- o On **December 31, 2006** - All U.S., Canadian and Bermudian nationals will be required to hold a passport to enter the United States if coming from the Caribbean, Central and South America by air and by sea. The requirement will be applied to all air and sea travel to or from Mexico and Canada.
- o On **December 31, 2007** - The requirement will be extended to all air, sea, and land border crossings.

For more information please visit: www.travel.state.gov or www.dhs.gov

For those of you traveling with young hunters International Travel With Minors

Due to international concern over child abduction, Canada has initiated additional requirements at arrival and departure points when children under 18 years old are not traveling with both parents. You may be prompted to furnish documentary evidence of the adults' relationship and permission of the parent(s) or legal guardian before they will allow the child to cross the border. Single parents, grandparents or guardians traveling with children often need proof of custody or notarized letters from the other parent authorizing travel. These requirements are in addition to passport or proof of citizenship requirements.

Minor traveling with one parent: If a minor is traveling with only one parent, the absent parent is expected to provide notarized consent. If only one parent has legal custody, that parent should be prepared to provide a court order of child custody to airlines and international authorities.

Minor with a different last name: If a minor traveling has a different last name from the mother and/or father, the parents should be prepared to provide evidence to airlines and official authorities, such as a birth certificate or adoption decree, to prove that they are the parents.

Minor has one deceased parent: If one parent is deceased, a death certificate is required.

Minor has one parent: If the birth certificate shows that the minor only has one parent, it will be sufficient to hold only a notarized copy of the birth certificate.

It is a very good idea to list all serial numbers on items such as (Rifle, cameras, Etc) and to have them on hand in Case US Customs believe you bought them in Canada.

Included in this information package should be the necessary forms to register your firearms; please take the time to fill them out but do not sign the document! You will be prompted to do so when you go through customs in Canada.

For any questions concerning those forms, please call the Canadian Firearms center at (506) 624-5380 or visit their website at:
http://www.cfc-cafc.gc.ca/faq/default_e.asp#g1

Nicolas Laurin, CEO
Safari Nordik Inc.

Dear Hunter,

I wish you a safe journey to Montreal and a great Caribou hunt.

My staff and I will do everything in our power to make sure everything goes well.

I have the privilege of working with one of the finest team of individuals and professionals this industry has seen.

They will have to put up with the fluctuations of weather, the uncertainty of the migration and myself; not to mention any unpredictable situations that may arise from operating in one of the most remote areas of this planet.

However, even if they are totally dedicated to your satisfaction and may put the game within reach, we depend on you to complete the cycle by harvesting your trophies and help us maintain the highest success rate in the industry!

I will have the opportunity to see you when you arrive in Kuujuaq and return from camp since I'll be right there with you.

Thank you again for choosing Safari Nordik !

Sportingly,

N. Laurin

Nicolas Laurin, CEO
Safari Nordik Inc.

SAFARI NORDIK CHECK LIST

Your aim is to limit your gear to 65 pounds including rifles and Bow

Hat	
1 Pair of Good socks	
Regular Clothing (worn under hunt clothes)	
Long Johns	
2 Pair of Pants	
2 Warm Shirts	
Waterproof suit (Rubber or Gortex, Hooded)	
Blaze Orange vest	
Gortex Leather Boots OR rubber boots	
<i>Pack Rack if you purchased the Drop Camp Pkg</i>	
Camp shoes light in weight (House slippers work)	
Sleeping Bag (Sleeping quarters are heated)	
Pillow Case	
Flashlight	
Ridgid Gun or Bow Case	
Weapon & Ammo	
Head Net	
Bug Repellent	
Binoculars	
Day Pack (works well for Carry On)	
Knife	
Towel, Washcloth & Toiletries, Kleenex, Lip Balm	
Camera & Film (Electricity in camp for chargers)	
Personal Medications	
Original Birth Certificate & Picture ID or Passport	
Waterproof marking pen	
Spending money	

OPTIONAL

Spotting Scope	
GPS or Compass	
Personal Snacks	
Fishing Rod (10 to 12 Test line (Clear line)	
10" Steel leaders. Mepps white/red (any lure for clear water)	
A selection of #2, #3. Almost any lure good for trout or pike	
Ear Plugs	
Card Deck	
2Way Radios	
Reading Material	
Liquor/Wine	

Note:

You wear hunting clothes for your flight to Kuujuaq. You can use your day pack as carry-on Ammo Packs in Checked luggage.

If you're flying home...

If others in party are travelling from your area use a double gun case (Airlines only allow 2 pieces of checked luggage & Carry-on). Gains free piece of baggage coming home. Airlines are charging for anything over 50#. In camp, guys travelling together can double up capes and possibly more antlers per bag to save on extra items leaving Montreal.

Remember: Meat, capes & Antlers are classified as extra baggage flying home

Each boxes will be re-wrapped in Montreal. Full hunt harvest will result in 2 Boxes for the Meat, 1 Box for Capes and 1 Antler Box. Call airlines to get the latest pricing on extra luggage as they may change them without notice

FLYING INTO MONTREAL

For those who have purchased a fly-in package from SAFARI NORDIK!

All ticketing is now done electronically. You will not be receiving any actual tickets; however, a copy of your itinerary will be sent to you either by fax or email. Your tickets will be issued at the appropriate airline ticket counter indicated on your itinerary. Any added information concerning your fly-in package should be included in this information kit. Please refer to the accompanying documentation for the contact information about your air travel with Safari Nordik.

Taking care of your own flight to Montreal

If you are taking care of your own airfare, please make sure that the airline you will be using is "hunter Friendly". In the event that you should be delayed by bad weather your tickets should be changeable for a minimal fee. Also, packaging the Caribou for the airline will require added material and care that is not covered in your package since you have taken care of your own flight. (55.00 \$) For those who travel with us, this has been included in the package.

Safari Nordik purchases tickets in the "adventure fares" class and if you need to rebook those flights, it will only cost you approximately 125 \$ to change to the next day if needed. For those of you that will be taking care of your own airfare, remember that not all airlines accept game or trophies.

When you arrive at the airport, There will not be a Safari Nordik representative to meet you. You are expected to board the proper Shuttle and proceed to the hotel to check in. All information pertinent to the Hotel and the shuttle you will be using is included with this booklet; please refer to the accompanying documentation.

DRIVING INTO MONTREAL

If you are driving to Montreal, Safari Nordik will provide free parking for the duration of your stay at a specific parking lot. (see the directions enclosed).

Please make certain you are at the right parking lot (double check with our Representative at the Hotel.)

We strongly suggest you lock your car and not leave any valuables in it and maybe go as far as unplugging a battery cable. Please be advised Safari Nordik releases itself from any responsibility should your car or its contents be stolen.

Also note, Safari Nordik will not cover parking costs for anyone parking anywhere else but the specified parking lot.

The speed limit signs in Canada are all in kilometres. 50 km is approximately 30 miles per hour. The speed limit on highways is normally between 90 to 100 km therefore 55 to 60 miles per hour.

Remember that seat belts are mandatory and that radar detectors are illegal in Canada.

Drive safely !

Snow Camp, Fall 2004

Most airline companies will require that boxes and antlers be double-wrapped and they will provide bags for this purpose. Please allow enough time for this procedure.

LIABILITY

While SAFARI NORDIK takes all reasonable care to ensure that your trophies and meat are transported in good condition as well as making sure these are returned to Montreal with you, we can not be held responsible for the delay or the loss of your meat or antlers which may result from abrupt changes in weather, airline delays, missed flight connections, or other circumstances beyond our control. Once again, should your items not arrive on your same flight, you will be expected to wait for them.

MEAT PROCESSING

Your meat can be butchered upon your return to Montreal. A team of butchers will work during the night and have your two caribous vacuum packed by early the next morning. The meat boxes will be delivered to the hotel ready for your trip home. One of the advantages of this process is the reduction of the bulk to approximately two thirds the volume (only two boxes instead of three) for the return flight home.

The price for this service is detailed in the accompanying documentation. This service will be offered by the representative in Montreal at the meeting in the hotel BEFORE leaving for your hunt. Should you not need to use both meat processing coupons refunds will be made upon your return to Montreal.

ATTENTION ATTENTION ATTENTION ATTENTION

**Please remember that if a transportation problem with your meat or antlers arises, you will be expected to wait for them.*

TRANSPORTATION OF MEAT AND ANTLERS

Although Safari Nordik does its everything in its power to make sure your meat and antlers are returned to Montreal with you, there is the possibility this might not happen due to bad weather, missed flight connections, and other situations that are not under our control... Should this be the case, you will be expected to wait for your game and antlers. Shipping game and antlers back to the United States once a hunter has left is a complicated and expensive process.

Note: Should Safari Nordik have to ship your items after your departure, you will be charged accordingly.

Transportation of your meat and antlers from Montreal to your home state is your responsibility, whether you are flying or driving. Airline companies will accept these boxes as cargo (luggage) or excess baggage and will charge according to their own policy.

You may be required to double wrap your boxes with bags provided by the airline company. Please allow sufficient time for this procedure. Unfortunately, there will not be anyone from Safari Nordik available to help you at this point.

We strongly suggest arriving at the airport a good two to three hours prior to your flight's departure and this does not include the time required to claim your items from the refrigerated truck next to the Hotel.

If you are flying home, airline companies will charge you according to volume and a maximum weight per box. (for an approximate total of \$80.00 per Box of up to 50 pounds).

SECTION 2.

Your Hunting Package

First Night in Montréal

The hunt dates listed on your contract correspond to a seven (7) day package including five to five and a half (5 to 5 1/2) actual hunting days. The first day of your package is reserve to get you in camp and the last day to get you out.

Please note that you will need to be in Montreal the day before your hunt begins. Since your flight to Kuujuaq is scheduled on the next morning, there will be an overnight stay in Montreal.

The one and only overnight accommodation included in your package is the first night which will be spent in Montreal (unless otherwise stated).

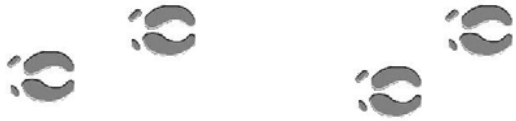

Please note that meals are not included anywhere in your package except while you are in camp.

The Room will be reserved in your name or your group leader's name. Everyone is asked to check in at the reservation desk upon arrival. A credit card will be requested to pay for additional services such as room service or long distance telephone calls.

Your overnight stay includes:

- One bedroom, DOUBLE OR TRIPLE OCCUPANCY for one night only. (Please note you will be sharing a room with one(1) or two(2) other hunters. Specify who you would like to be paired with in the documents accompanying this Booklet. Hunters traveling by themselves will no longer be paired randomly in Montreal and will therefore be asked to cover for the single room extra of 75 \$.
- Free parking for the duration of your hunt.
- A refrigerated truck available for the storage of your game & antlers upon your return to Montreal.

Not Included:

- -meals outside camp and all other services.
- -Gratuities

MEETING

During the evening of your overnight stay in Montreal a Safari Nordik representative will hold a meeting to discuss last minute details concerning your trip, and answer any questions. He will hand out your caribou hunting license, collect whatever balances are dues and any pertinent documents. The exact time and location will be posted in the hotel lobby. Please note that you are expected to arrive before 6:00 PM on the evening before your flight to Kuujuaq.

TRANSPORTATION

Safari Nordik has arranged air transportation between Montreal and the hunting camps. All of SAFARI NORDIK's clients LEAVE ON THE FIRST available morning flight. Should there be any changes to our logistics, we will be notified. Please refer to the accompanying documentation for the specific details.

It is possible to upgrade your overnight stay(s) to either a single room or a more luxurious room with additional services. Please refer to the accompanying information to learn more about it.

RELOCATION

Hunting is hunting! But if animals were to vacate the area before you've had a fair chance to hunt them, the camp manager will request a transfer to better grounds.

There is no charge to move semi-guided (1x3), guided (1x2) or trophy (1x1) hunters to a more productive camp; however, there is a \$200.00 U.S. fee to move Drop Camp hunters.

SECTION 3

... ***Hunt's Over... but not the adventure !***

RETURN TO MONTREAL

You will be returning to Montreal late in the evening on the last day of your hunt dates.

If you have purchased a "fly-in" package, you will need an overnight stay in Montreal since your flight out of Montreal will be booked for the day following your return from Kuujuaq.

If you have driven to Montreal and would like an overnight stay on your return from Kuujuaq please refer to the accompanying information. The contact information is included in this information package.

SECOND OVERNIGHT STAY

All second overnight stays are at the expense of the hunter unless specifically stated in your package. In case of changes all reservations for this second night can be made directly to the Hotel.

SAFARI NORDIK GUARANTEED POLICY

We are the only outfitter that will offer this type of a guarantee. If you are unsuccessful in having the opportunity to harvest an adult bull, we will bring you back the following year, free of cost, or you can get a 50% cash refund. The reason we cannot guarantee a two bull policy, clients who would kill a trophy for their 1st kill, they would choose not to shoot the 2nd one, so they could return free, or have the 50% cash refund. When we move you into a camp where the caribou are migrating, in order to fill the guaranteed policy. If we have another successful year, like we have had in the last 16 years, you will kill 2 bulls. The last 6 years we had a 99% kill on 2 bulls per hunter and the last 16 years a 95% kill on 2 bulls per hunter. If you choose not to make a stalk on an adult bull, and we put you within 100-300 yards of an adult bull, or if you miss, or if you choose to harvest a cow for the meat, your guarantee will be void.

BOW HUNTERS:

We can only guarantee this policy until the end of August, reason being, in September we get a lot of high winds, it is hard to stalk the caribou. The caribou will run along the high ridges, where there is no cover. When we put you within 10-35 yards of an adult bull, and you choose not to harvest the bull, or you choose not to stalk on an adult bull or if you miss, your guarantee is void. You do not have to harvest any adult bull, but your guarantee will be void at this time.

UNGUIDED HUNTS:

We are offering the same policy with the exception, if you're unsuccessful, we will put a guide with you or move you into another camp where you will be guided. All the above is included in your hunt except for the tip to the guide.

Official Success Rate: The success rate for the Quebec Labrador Caribou in Zone 23 for Fall Hunting as declared by Government agencies for the total number of hunters was 1.2 Caribou per hunter in 2004; zone 23 includes the areas of Shefferville and **Nunavik**.

LUGGAGE

You are allowed 65 pounds of luggage including your rifle and/or bow case, not including a carry-on bag. This bag must not exceed 9" x 16" x 19". All excess weight will be charged at 3 \$ a pound (US funds).

HINT: To reduce luggage weight we recommend that you travel in your hunting or camp clothes from Montreal to Kuujuaq. Also, pack heavier items like your camera in your carry-on bag.

***DO NOT PACK AMMUNITION,
HUNTING KNIVES, LIGHTERS
OR FISHING TACKLE
IN YOUR CARRY-ON.***

CLOTHING AND WEATHER

The weather around the 57th. parallel can be extremely unstable during the hunting season. Bring clothing that is light, warm and waterproof, and pack some spare garments just in case they are needed. In August, the temperature can vary between 45 F. and 75F., and in September or October, from 15 F. to 65 F. Gloves, warm and dry head-gear and woollen socks are an absolute necessity during the fall, and of course you'll need long underwear!

REQUIRED BY LAW

Every person hunting, must wear blaze orange or reddish-yellow fluorescent garments which cover at least 400 square inches of the back, shoulders and chest. This garment must be visible from all angles. The fine for not wearing a blaze orange or reddish yellow garment can be up to \$500.00 CND.

HUNTING BOOTS

The tundra is spongy and wet. You will need a well-worn-in pair of hunting boots to protect your feet and ankles, and in case these boots get wet, we recommend that you bring a second pair.

OTHER GEAR

Your sleeping bag should be warm enough to withstand evening temperatures that may drop around 50F. Don't forget to pack your pillow case (a pillow is provided).

On warm sunny days in the early part of the season, the arctic can be invaded by hordes of mosquitoes and biting flies. Be sure to bring a good bug repellent (look for 100% DEET in whatever brand you choose), and a head-net. If you have a bug suit, pack it as well!

For a list of items to bring refer to our recommended check list at the end of this booklet.

FIREARMS

The laws regarding the transportation of firearms into Canada have changed as of January 1, 2001. Enclosed you will find detailed information on these new regulations as well as the necessary form to be completed (but not signed) prior to your arrival at Canadian Customs. Note: this form must be signed only in the presence of a Canadian Customs Agent.

AMMUNITION

Which ever calibre you use, choose the bullet weight which gives you the flattest trajectory between 150 and 300 yards. There may be occasions when you have to shoot at distances beyond 200 yards, and times when you may stalk to within 25 yards.

And for everyone's safety...

- *Never use boats in unsafe weather*
- *Always wear a life jacket when on board a boat*
- *Always keep the safety lock on your rifle when not using it*

SIMPLE RULES

*never point your rifle at someone

*never hold the rifle by the barrel

*make sure the rifle is not loaded while in a boat or any other means of transportation

*make sure you are aware of what you are shooting at

*never shoot at game moving towards another hunter

HAPPY HUNTING!

SAFETY PRECAUTIONS AND RULES FOR EVERYONE

It is prohibited to:

- hunt at night
- hunt under the influence of alcohol or while intoxicated
- hunt without fluorescent garments
- hunt with a crossbow
- abandon game after it has been shot or wounded
- chase, injure or kill an animal using a motor vehicle, an aircraft or motorized boat
- use tracer bullets or military type hard point bullets with non-flattening tips
- dispose of animal carcasses in lakes or rivers
- transport big game that has not been identified (the licence tag must be affixed to the animal)

Remember to always carry matches or a lighter

LOST! LOST! LOST! LOST! LOST! LOST!

We hope this will not happen to you, but if you do get lost, follow these 3 important rules:

1. **DO NOT WALK** - Stay where you are! There will be some one looking for you.
2. **MAKE YOURSELF VISIBLE.** From the air and the ground. Build a fire. Use any-thing that can be seen from the air and the land as a landmark.
3. **WEAR ORANGE.**

To minimize chances of that happening:

- *never leave camp without at least telling one person*
- *never wander far from camp alone*
- *notice landmarks and carry a compass*
-

CALIBRE	WEIGHT In grains	DISTANCE In meters
243 Winchester	100	200
25-06 Remington	120	300
270 Winchester	140	300
284 Winchester	150	300
30-06 Springfield	150	300
303 British	180	300
308 Winchester	150	200
65 x 55 Mauser	139	200
5 x 57 Magnum	139	200
264 Win. Magnum	140	400
7mm Rem. Magnum	150	350
300 H.H. Magnum	180	400
300 Win. Magnum	180	450
308 Norma Magnum	180	450
338 Win. Magnum	180	350
300 Wea. Magnum	180	450
7mm Wea. Magnum	150	350
270 Wea. Magnum	150	350
358 Norma Magnum	200	350

BOWHUNTING GEAR

We recommend hunting bow draw weights in excess of 60 pounds. Your shots may be as close as 10 to 15 yards, but you should have a bow, arrow and broad head combination that you can shoot to 30 yards or more. Remember that the wind may be a major factor in conditions you will encounter; keep this in mind when preparing for your hunt.

Although a broad head works by causing haemorrhage, the tundra is wet and spongy and blood trails are difficult to follow under the best conditions. The caribou herd is large and growing, but no one likes to wound and lose animals. Make your shots count. you may want to bring along a rifle just in case.

BLACK POWDER

Loose black powder is forbidden aboard all aircrafts. However, pre-loaded black powder in bullets/cartridges stored in an appropriate ammunition box / case is allowed. If you plan to use Black Powder, contact your Safari Representative so he can take proper steps to have the right grade of BP available in Kuujuaq.

WARNING

*HANDGUNS OF ANY KIND
OR AUTOMATIC RIFLES
ARE NOT ALLOWED IN CANADA*

MISCELLANEOUS

Compass or GPS (some areas have large iron deposits), waterproof matches or a lighter, good binoculars are a must, a sharp hunting knife for field dressing and skinning, and a knife sharpener is also recommended.

While you will certainly want to photograph the beautiful landscape, please do not take photos of the Inuit people without asking their permission first.

HUNTING

Residents of Quebec are obligated to hold a hunter's education certificate to obtain a hunting licence. Non-residents, including U.S. citizens, must bring a former state hunting licence, or driver's licence, or any other form of positive identification.

Your caribou license will be issued to you during the meeting on the day of your arrival in Montreal. Bear, small game and fishing licences may be purchased in camp.

7. BOAT / MOTOR / A.T.C. - These are very important pieces of equipment in this part of the country and it is your guides' responsibility to handle them. If you want to go somewhere ASK HIM, it is his job to take you there.

8. FISHING - Of course we know that you will respect the hunting & fishing regulations, a copy of these are available in camp, ask your camp manager. Remember fishing season closes on September 07th. After that date, Catch & Release on Lakers is permitted

9. We ask you also to respect the environment. and PLEASE BRING ALL GARBAGE BACK TO CAMP.

10. SATELLITE TELEPHONE communication is to be used strictly for emergency purposes. The cost of an outgoing call is \$5.00 US per minute.

11. PLEASE report any equipment that is not working properly to the camp manager.

12. Another group of hunters will be arriving on the day you leave camp. Please make sure the camp is as clean as it was when you arrived.

13. REMEMBER SHOOTING GAME IN THE WATER IS AGAINST ALL ETHICAL RULES OF FAIR CHASE AND IS ABSOLUTELY FORBIDDEN.

EUROPEAN PLAN (Drop camp)

All guidelines of the American plan are applicable for the European plan except for the following:

1. There are no guides in camp, however there is a manager and cook
BOATS / MOTORS - Are very important pieces of equipment in this part of the country and it is your responsibility to handle them. PLEASE BE CAREFUL AND WEAR YOUR LIFE JACKETS AT ALL TIMES WHEN NEAR or ON ATER A BOAT.

SAFARI NORDIK OUTPOST CAMP GUIDELINES

AMERICAN PLAN (Semi-guided, guided or trophy)

1. GUIDES - Your guide during your hunt will indicate strategic hunting ground, help you with gamed animals; help with the transportation of the animals back to camp, help with the packing of game for your return, etc.
2. GAME TAG - **** VERY IMPORTANT **** - your caribou hunting license has two tags. Once your caribou is down, the **LAW REQUIRES YOU TO TIE ONE OF YOUR TAGS TO THE ANIMAL**. This tag must remain on the animal until you are ready to pack the game in boxes for transportation.
3. PACKING GAME - **** VERY IMPORTANT **** when packing the game in boxes, the tag must be taped on top of the main box, and any additional boxes or sets of antlers must be identified with the same numbers shown on your license (use the stickers provided at the meeting).
4. Packing of game will be done the day before departure, in order to do so, your guide will have to stay in camp on that day until everything is done. We ask that you help the guide and make sure to label each box **GAME** or **CAPE** in large block letters.
5. **BOXES** - Each hunter is allowed the necessary number of boxes for game transportation.
6. **CAPE** - If you would like a cape, most guides are able to prepare them. The cost of a cape is \$35.00 US payable to the guide, as he will be doing this on his own time. In the past, this service was free; the last year of this free service, 65 capes were abandoned at the Montreal Airport. This simple fee has eliminated that problem.

DRINKS IN CAMP

In camp we will provide you with different kind of juices (peach, orange, apple, grape etc.) Coffee and tea will also be served at all times. Canned beer and soft drinks can be purchased in advance.

Please note that beer and soft drinks are more expensive in Quebec than they are in the United States and that shipping them by plane costs more than the actual product.

If you wish to have any beer or soft drinks they must be ordered in advance, (see the return purchase order form). We will then fly them into your camp before your arrival.

THERE IS A LIMIT OF TWO CASES of 24 PER PERSON.

SPECIES HUNTED

Caribou, black bear, and ptarmigan are among the species hunted in the area.

It is prohibited to hunt all migratory birds, wolves, muskox and polar bears. Season for Black Bear and Ptarmigan begins around the 25th of August of each year.

FISHING AT THE HUNTING CAMP

Although caribou hunting is the main preoccupation on our northern adventure hunters who have taken their quota of two caribou may enjoy fishing in the crystal clear lakes close to their camp. Common species of fish caught are Pike, Lake Trout, Land Lock salmon or Char, Arctic Char and Speckled Trout.

Take note: fishing season closes September 7th! for all species. After this date, Catch & Release for Lakers may be permitted unless announced otherwise.

SPECIES AVAILABLE

PIKE: average is 5 to 8 pounds limit is 10
 LAKE TROUT: 5 to 20 pounds limit is 4
 SPECKLED TROUT: 2 to 3 pounds limit is 10 or
 15 pounds +1 fish
 ARCTIC CHAR: 2 to 10 pounds average limit is 5

RECOMMENDED LURES

For light casting:

- Lures with single or triple hooks, red and white type, Daredevils 2" and 3"
- All William Wobblers
- Mepps, red dot size 2-3-4
- Blue Fox's: pixies 3" long, the Super Duper, the Silver Wobblers
- Alligator or crocodile wavy up to 3" twist
- Monofilament: 10 to 15 pounds test (extra fine)

For Fly Casting:

- Resistable lower part of the line from 6 10 pounds
- Wet fly: Dark Montreal, Grizzly King, Dusty Miller, size 8-10-12
- Dry fly: Black Nat, Emerson Hough, Quebec, size 8-10-12
- Streamers: Muddlers Minnow, Mickey Finn and Grey Ghost in sizes from 2 - 8

LICENCES (approximate US prices)

Fishing

1 day - \$10 3 day - \$20 season - \$40
 catch & release - \$10

Small Game

season - \$85.00*
 Caribou - \$250.00*

Black Bear
 season - \$105.00*

*Approximate US currency from the CND Prices. Please check with the camp manager for exact cost since they may change without notice.

GOING TO CAMP

Once we take off from Montreal, we will head for the Quebec Arctic. Once we have landed at our operation base (Kuujuaq or Area), we will then board a bush plane to fly into camp. Bush planes used are usually the Twin Otter, and sometimes Single OTTERS or Beavers on floats.. Once in camp, you will be directed by the guides and camp personnel to your sleeping quarters and a small meeting will be held. You may or may not be hunting on this day; you will have to check with your camp manager but normally, depending on the time you arrive, you just may.

The manager's job is filled with small details linked to your security and our operations. We put every possible effort to make these trips look easy and go smoothly; please keep in mind that you will be hunting one of the most remote areas on this earth and that your cooperation in matters of safety and safe hunting is required.

GUIDES

A semi-guided hunt package indicates one guide per three hunters. Guides are available to assist hunters. Cape preparation is NOT included in this package, however; if you would like a cape, a fee of \$35.00 U.S. must be paid to the guide as he will be doing this on his own time. Hunters are urged to participate and supervise the guide since Hunters are to accept responsibility for the finished product.

Cape preparation is included in the 1x1 and 1x2 hunt packages.
